Ecogrand with own MEP division, we are doing all our Contract works inhouse. Client, Consultants and all stake holders we achieve and deliver the high-quality products & services to exceed the industry standards.

WHO WE ARE

OUR VISION

To be industry recognized as a trusted and reliable contractor of choice in delivering projects and services with utmost quality and performance. Maintaining healthy and safe environment by generating a culture that does not tolerate threats to violate the requirements of good health and safety. Raising environmental awareness and encouraging engagement in initiatives aimed at achieving a more sustainable society.

OUR MISSION

Our mission is to provide industry's best construction contracting expertise exceeding client 's & customer expectations through:

- Delivering superior flexible, firm, cost effective on time and integrated construction engineering solutions & services across our extensive field of expertise.
- Maintaining the highest level of professionalism, integrity, honesty, and fairness in conducting business and promoting good relationship with our partners, suppliers, sub-contractors and customers.
- Develop & establish associate expertise portfolios and integrate to core business to become a group company that delivers full-service construction solutions across do mains of industry.
- Safeguarding our organization's image and reputation as it continues to grow because of the competitive advantage we deliver generated by satisfied customers and their referrals, relationships and ability to attract, develop and retain in house team who take pride in serving the company.

CORE VALUES

ETHICS

We strictly follow set of behavioral rules reflected in all our business dealings. We consider Values, Principles, Management Support, Personal Responsibility and Compliance as the key components of a Code of Ethics.

RESPECT

Mutual respect is the cornerstone in every relationship. We promote this internally and externally because these relationships strengthen our business.

INTEGRITY

Our business relationships are built on trust and we are heartily concerned with our reputation. We inextricably connect trust and reputation in building our integrity.

HONESTY

We value honesty because honest business practices build foundations of trust with colleagues, competitors, partners, customers and every other individual and entity.

SAFETY

Zero accident is our unwavering goal. We are continually working on actions and initiatives to avoid any kind of incident rates, as well as focusing on maintaining zero incident levels, where this has been achieved.

SUSTAINABILITY

We look forward for sustainable development that aims to balance our economic, environmental and social needs, allowing prosperity for now and future generations.

TEAM SPIRIT

Nothing is achievable without the right team of team spirit. We take pride in our team and their expertise & strengths and we sustain the strive to achieve our goals and beyond respecting of integrating of catering to their technique and or personal development that grows as we grow.

QHSE POLICY

ECO GREEN recognizes the fact that an efficient QHSE Management System has positive benefits to the company and that commitment to a high level of QHSE management system makes good business sense.

ECO GREEN also recognizes that QHSE is an essential function and must therefore continually improve, update and adapt to changes. Similarly, ECO GREEN shall also do what is reasonable to avoid or to minimize any adverse environmental impacts from our activities, promote and adopt environmental sustainability initiatives. In order to achieve this aim, ECO GREEN is committed to:

- Integrate QHSE into our business strategies, processes and manage effectively by implementing process oriented, integrated management system with respect and care for the environment and without compromising the health and safety of our people.
- Deliver services at all times to satisfy the needs of our customers, thereby ensuring satisfaction.
- Ensure safe working conditions and practices, to provide adequate control of HSE risks arising from our activities in all business operations and preventions of incident, pollution, and ill health of our employees, clients, subcontractors, visitors, and others that may be affected by our operations.
- The scope of this policy extends to all construction sites, factory/workshop and offices.
- Meet or exceed all QHSE requirements. Evaluate our QHSE performance by monitoring results and through regular audits and management reviews, thus ensuring compliance with the ISO 9001, ISO 14001 and OHSAS 18001 international standards.
- Consult with employees and ensure all who work on our behalf are adequately informed of identified risks and where appropriate receive relevant information, instruction, training and supervision.
- To continual improvement of our organization and to comply with customers' requirements to improve the effectiveness of the integrated management system.
- All our employees are responsible for implementing, maintaining and promoting the policy within the organization.

QA/QC POLICY

Eco green's philosophy is to continuously strive for excellence in delivering professional services.

This commitment to quality service mandates the use of a formal quality management organizational structure that sets minimum quality standards required to meet our Client's needs and expectations for quality, timeliness, cost-effectiveness and efficiency.

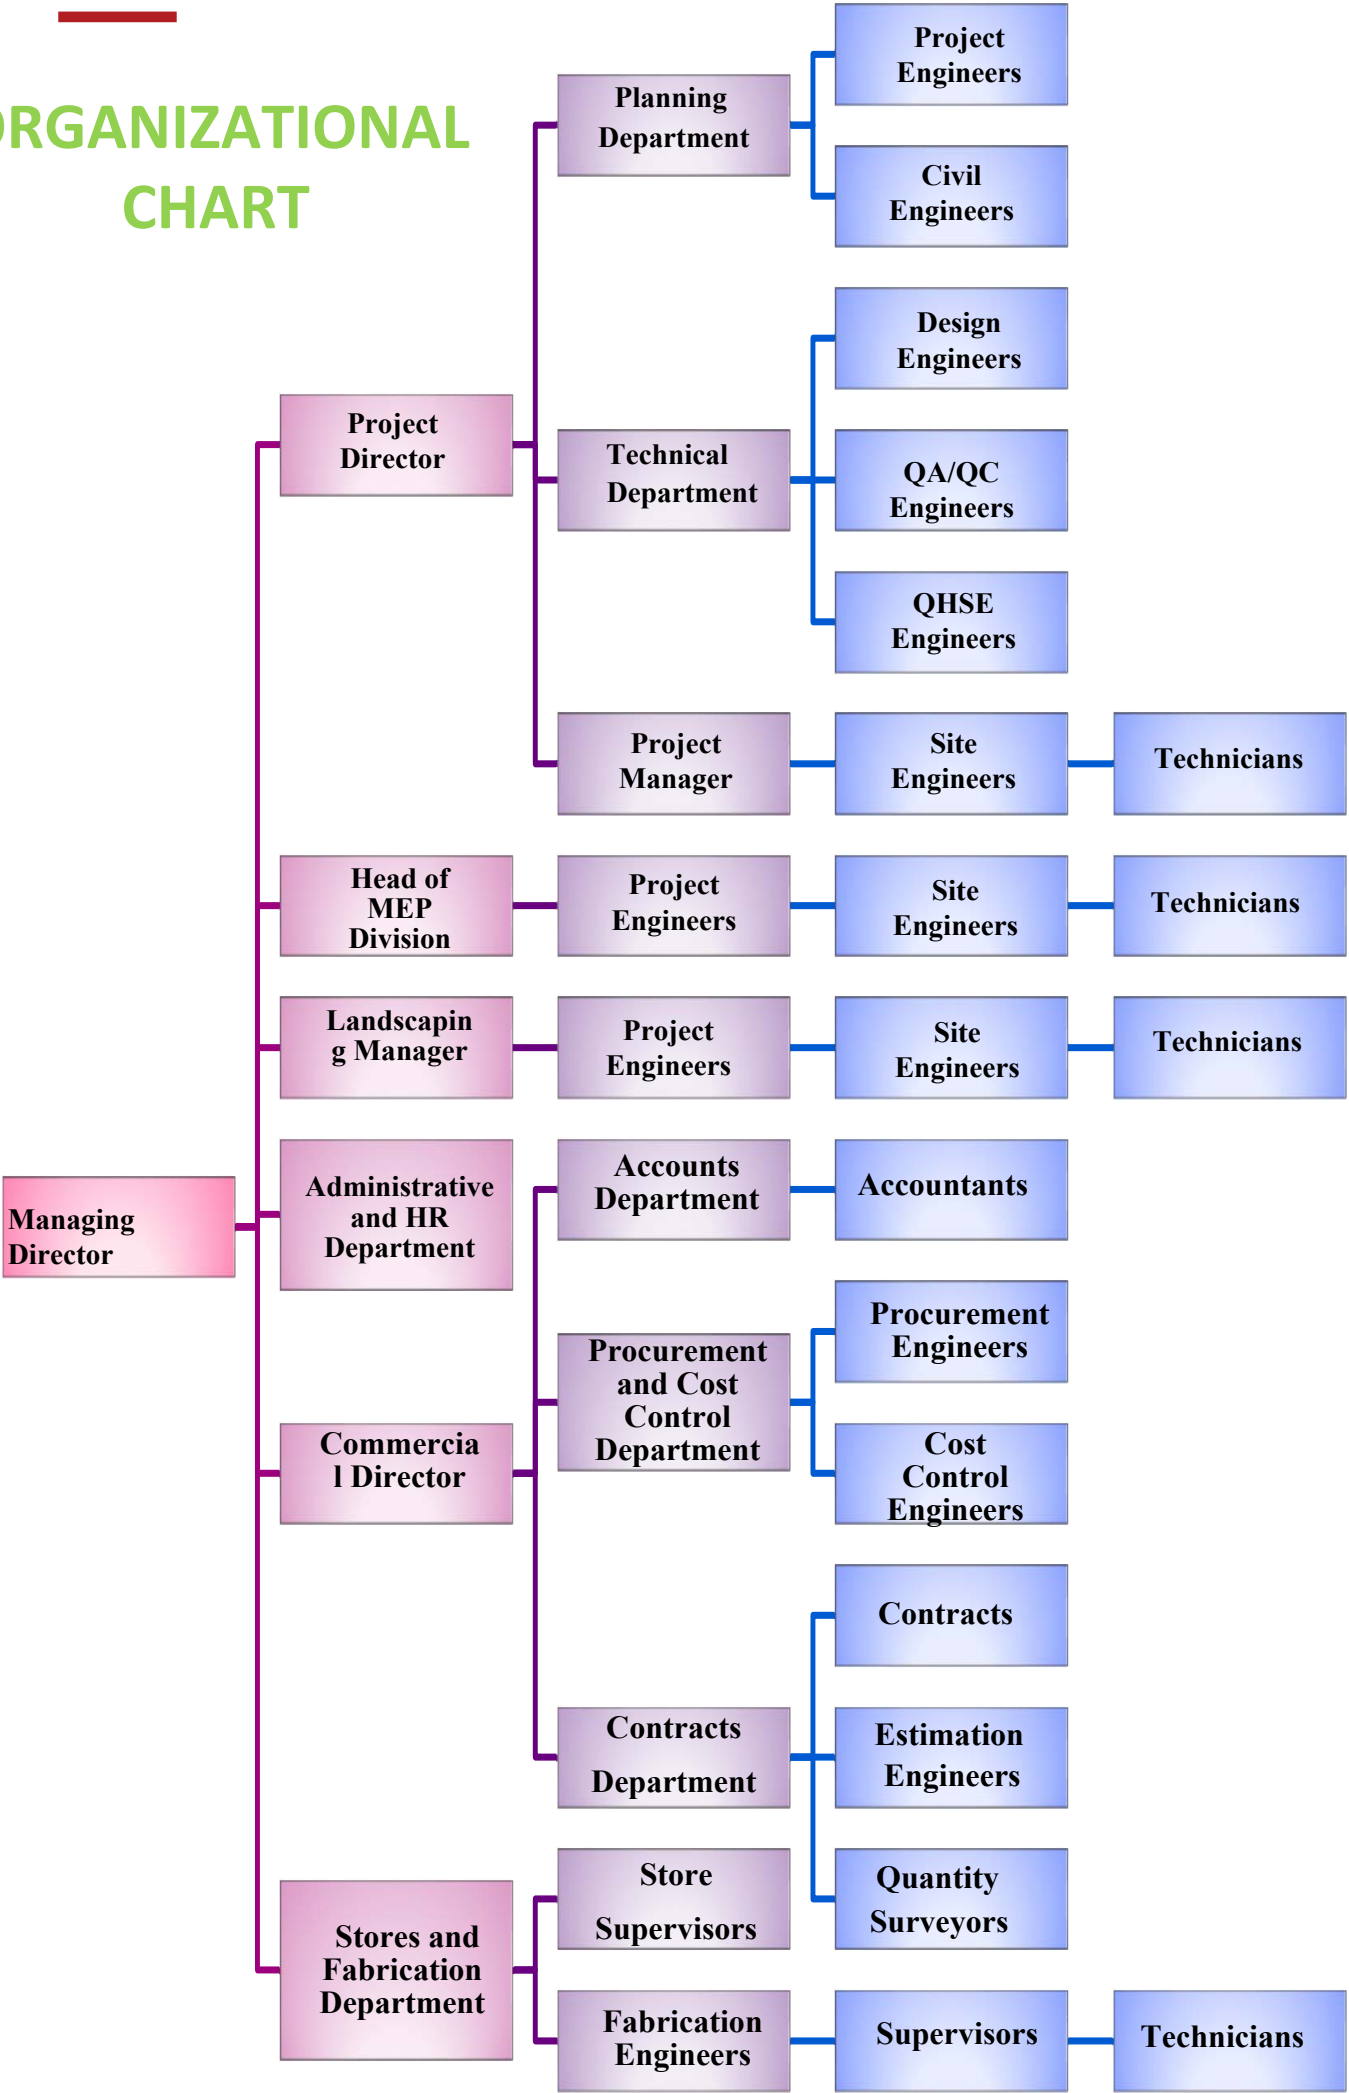

Eco green has established project and communication processes that ensure accurate, timely and effective response to the identified needs of our Clients.

Eco green's approach includes the following:

- A single point of contact to address all technical issues, this structure holds constant regardless of the project location.
- A uniform format for project completion and report preparation regardless of which office (or site off ice) is taking the lead.
- All work is managed through Ecogreen Contracting & Landscaping LLC Projects Director based in our head offices.
- A set companywide QA/QC Policy.
- Assessment of Percentage of Time for Quality Control is developed from similar projects assuring accuracy, compliance and thoroughness. The size of the contract, the technical complexity and the regulatory and design requirements being addressed determines the level of QA/QC activities. Competent and experienced Quality Control Manager(s) support Eco green's QA/QC policy and provide overall Quality Review to assure.
- Tasks are completed with the highest degree of technical accuracy
- Investigations, assessments, and recommendations are competently developed and conducted
- Final documentation is in concert with our Clients, as well as applicable regulatory authority, requirements.
- We decided long ago that what we do for our clients must exceed the standard and quality of work that any other best company in industry can offer and deliver.

Hard and Soft Landscaping

We are a Dubai municipality and RTA Approved Landscaping Contractor, have been constructed many community parks in Dubai and many road side landscaping projects.

We have proven our valuable expertise in building any complex designs in to fully functional living spaces smoothly integrating various soft landscape and hard landscape components ensuring trouble-free performance. We have a very qualitative approach to work as per industry standards using best quality products and workmanship to exceed client expectations & satisfaction.

We deliver the following Hard & Soft Landscaping components.

- ▶ Garden structures & structure elements.
- ▶ Fences & Walls
- ▶ Walkways, Decks & patios
- ▶ Palms, Trees, Shrubs, Ground Covers, Seasonal Plants & Seasonal Flowers.
- ▶ Fence, Lighting & Decking.
- ▶ Periodical & Annual Maintenance.
- ▶ Planting soil & Soil components.
- ▶ Wall planting.

Automatic Irrigation Systems

Ecogreen specializes in the design and installation of automatic irrigation systems that will ensure the regular and accurate provision of water to your landscape, we employ the latest irrigation technology that is installed and commissioned by experts to help preserve your landscape's natural radiance and beauty.

Advantages of Automatic Irrigation Systems:

Automation eliminates the manual operation of opening or closing valves.

Possibility to change frequency of irrigation cycle and to optimize it.

Adoption of advanced automation systems and new technologies, especially new that are complex and difficult to operate manually.

Use of water from different sources and increased efficiency in water and fertilizer use.

Systems can be operated at night, water loss from evaporation is thus minimized.

Irrigation process starts and stops exactly when required, thus optimizing energy requirements.

An automated irrigation system refers to the operation of the system with no or just a minimum of manual intervention beside the surveillance. Almost every system (drip, sprinkler & surface) can be automated with the help of timers, sensors or computers or mechanical appliances. It makes the irrigation process more efficient and workers can concentrate on other important tasks.

On the other hand, such a system can be expensive and very complex in its design and may need experts to plan and implement it. Water is the crucial element required for the sustenance of every beautiful landscape.

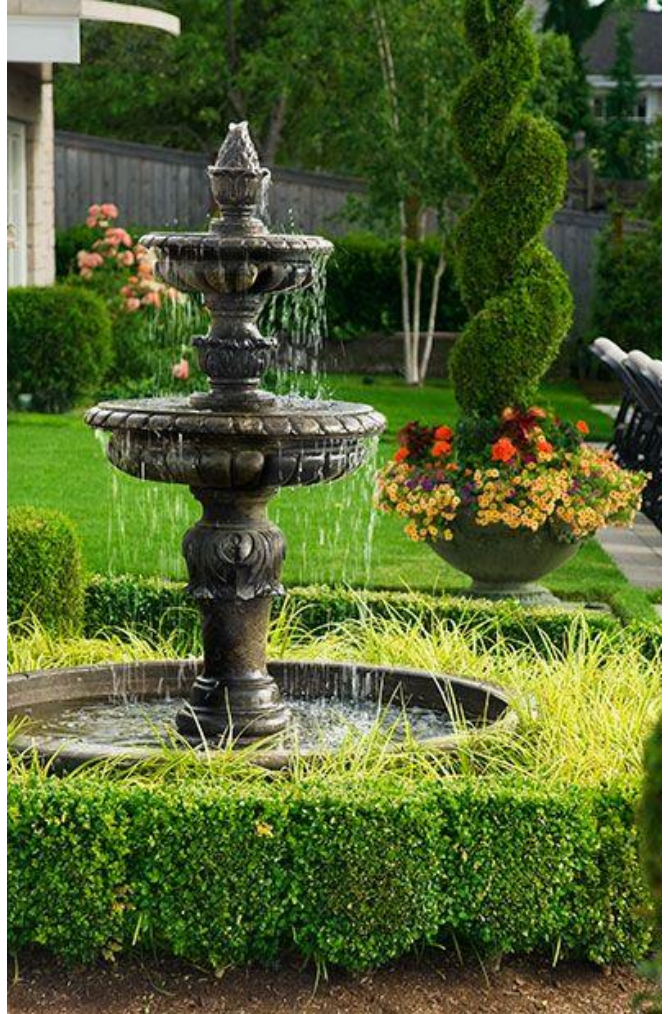

Water Features

Ecogreen undertakes the engineering design and construction of decorative water features such as cascades, streams, lakes and fountains that will serve to accentuate the beauty of your landscape. All our works are complying with International standards.

In landscape architecture and garden planning, water features refer to fountains, pools, ponds, streams, waterfalls and cascaded. These uplift the beauty and smartness of a normal swimming pool. It adds a sense of class to the pool. Enhancement water features are included in our swimming pool design as per the tastes, requirements and the budget of our Clients.

We have qualified engineers who are skilled in the field of waters capes and will provide you with customized water features and swimming pools that are best suited to your requirements.

Landscape Lighting Systems

Landscape lighting systems are provided to illuminate and enhance the beauty of the landscape in the night.

Ecogreen specializes in the implementation of dynamic and efficient lighting systems that will enliven your landscape into an area of spectacular beauty. A variety of lights can be used to accentuate trees and highlight features such as swimming pools, fountains, gazebos, patios and plants. Ecogreen uses the latest technology to implement landscape lighting systems of the highest quality that will best complement the beauty of your landscape.

Swimming Pools and Water Theme Parks

The Company now designs and execute swimming pools for a wide range of sectors. We have successfully executed several prestigious swimming pool & water park projects for commercial and residential, private villas and health clubs.

- ▶ Swimming pools Olympic
- ▶ Training Pools.
- ▶ Gunit Pools
- ▶ Fiberglass Pools
- ▶ Water Falls
- ▶ Sheer Swimming Pools

Ecogreen & Ecogrand offers customized maintenance packages that are tailored to suit our Client's individual requirements.

Outdoor Furniture

Ecogreen offers a wide range of garden furniture and accessories such as parasols, benches, lounges, planters, bollards and bird baths from world renowned manufacturers.

Our garden furniture will complement the beauty of your landscape whilst allowing those who enjoy nature to experience the outdoor furniture facilities and want to enjoy their morning tea with the newspaper in one hand sitting in a garden designed by outdoor furniture.

We are proud to serve you with the best service of providing outdoor furniture with the wide range of old dated and modern garden furniture with the advice of our expert and customer care.

Sports Fields and Halls

Ecogreen Contractors brings the knowledge and experience you need for your sports construction projects. From football field to tennis court and running track construction, Ecogreen Dubai's design team can handle any athletic field or court project from start to finish.

Ecogreen Dubai is the sports field construction contractor of choice for dozens of respected commercial & residential facilities including both The Warsan Club House and the Mankhool Park Basket Ball Court and Many More. No matter the project scope, trust Ecogreen Contractors to get the job done right.

Indoor Facilities

- ▶ Badminton Courts
- ▶ Basketball Courts
- ▶ Handball Court
- ▶ Net ball Court
- ▶ Squash Courts
- ▶ Volleyball Courts

Outdoor Facilities

- ▶ Soccer Field
- ▶ Synthetic Running Track
- ▶ Swimming Pools
- ▶ Tennis Courts
- ▶ Jogging track

OUR APPROACH TO PROJECTS

We continuously aim to improve the delivery of projects through our expertise and experience and the application of robust systems and process.

- Maintain **core team** of resources.
- Structure **project team** as per **project and client requirements**.
- Supplement resources with **selected skilled resources**.
- Focus on **Project, Engineering and Construction Project Management** (supported by sound engineering experience and qualifications).
- **Capital, Cost Saving** and **Business Improvement**.

While we maintain focus on the discipline of project management, our strong engineering profile adds significant value, as we assist in planning and interpretation of engineering solutions.

IT IS ECOGREEN'S GOAL TO ACHIEVE THE FOLLOWING:

- The **correct scope** is implemented to address the need and address the project objectives.
- The client pays a fair price **for the implemented scope**.
- The product is delivered within the best **possible time period** to optimize “**time to market**”.
- The product meets the **user requirement specification** and the **technical standards set** by the professional team.
- A suitable **integrated project team** focuses on delivery of the product.
- Project risks are **continuously identified, assessed and managed**.
- The client and stakeholders are **regularly updated** of progress.
- Documentation is **managed and stored**.
- **Goods and services** are procured to meet time, cost and quality requirements.
- The above is integrated towards a **successful project**.

TAKING OVER CERTIFICATE

Reference: **AFM/1221/NAK-LT-95279**

Date: 27/12/2021

Project Name : **Mosque with Service Block**

Contract No : **DMS 146830**

Description of Works : **Construction of Mosque with Service Block on Plot No. AFVC03 at Al Furjan South**

Contractor : **ECO Green Contracting & Landscaping LLC**

Commencement Date : **13th October 2019**

Contract Period : **365 Days**

Contract Completion Date : **12th October 2020**

Revised Contract Completion Date : **2nd September 2021**

Actual Completion Date : **23rd September 2021**

Pursuant to Sub-Clause 10.1(c) and Appendix to the Contract for Lump Sum Construction Contract, it is hereby certified that the whole of the works as described above are completed as of 23rd September 2021 except for the list attached under "List of Pending Works".

This Certificate is issued following the receipt of the Contractor's request to take over and subsequently complete the pending works during the "Defects Liability Period" and also to attend/rectify the defects (if any) during the "Defects Liability Period" in accordance to Sub-Clause 11.1 of the Conditions of Contract. Failure on the Contractor's part to carry out these obligations shall entitle the Employer to apply provisions of Sub-Clause 11.4 of the Conditions of Contract.

The "Defects Notification Period" for the Works as defined under Sub-Clause 11.1 shall commence from 23rd September 2021 and end on 22nd September 2022.

For **Nakheel PJSC:**

Mohammed Rashed
Acting Chief Projects Officer

TAKING OVER CERTIFICATE

Project Name : Construction of Splash Water Park at RIU HOTEL at Deira Islands, Dubai

Contract No. and Name : DMS - 146977 - Construction of Splash Water Park at RIU-Hotel at Deira Islands, Dubai

Project : R777/4B1: Entrances to the Jewel of the Creek Development

Subject : Pre-Qualification of Sub contractor – M/s Ecogreen Landscaping LLC

Dear Sir,

With reference to your letter ref: C.2.166/17A3138 dated 13 June 2017, Regarding scope of work clarification queried by Dubai Municipality Horticulture Department related to Horticulture works to be subcontracted M/s Ecogreen Landscaping LLC, we would like to state as under:

1. Horticulture works: New planting works for parks and street scape: The entire scope of planting works along with fertilizer supply and mixing, supply of various plants and planting are to be done by Dubai Municipality Horticulture department as it states in the contract bills of quantities. Please have attached the list of plants to be supplied (refer BOQ, page No. d/19-1/3 and d/19-2/3 attached), fertilized and planted by DM horticulture Department. The subcontractor scope will be only to supply and spread sweet soil and facilitate watering by operating irrigation system during planting works done by DM horticulture department. These works shall be executed in stages as areas are made available for these works free from main works/road works.
2. Horticulture works: Tree removals and replanting and other grass and shrub removals: There are around 60 numbers of trees to be removed and replanted at new locations. There are also grass and shrubs to be removed and either delivered or disposed as per horticulture department instruction depending on the existing condition and usability of those plants. The quantities are not quantified in the contract BOQ but shall be notified as we face such removals from time to time as we progress on the project. These works shall be executed in stages as per site conditions and requirements and a schedule and quantity of these works shall be notified for DM horticulture Department approval during execution.

AFCONS CONSTRUCTION MIDEAST L.L.C.

United Arab Emirates, Dubai, P.O.Box 47516

Phone : +971 4 2580971/72, Fax : +971 4 2580973

Email : mudit@afcons.com, Website : www.afcons.com

3. Automatic irrigation works: Please be noted that Pre-qualification Ecogreen landscaping LLC for Auto irrigation works are already approved by DM drainage and irrigation department and the copy of approval received is attached for your reference. However the scope of work quantities are as per attached automatic irrigation BOQ page number d/19-1/10 to 1/18 and d/19-2/7 to 2/14.

Please be noted that the entire works contract duration is for 24 months from start to finish in which 115 days are elapsed. The works shall be executed by proposed subcontractor in stages and phases as areas are made available to them free from obstruction and main works/road works, through the two year contract duration.

As the main horticulture works 'Supply and Planting of Horticulture plants and fertilizing' are exempted from scope and that EcoGreen have proven their ability performing many multi million contracts directly with DM, namely PJ- 20033- Development of Mushrif park, PJ 20027- Al Mankhool neighbourhood park, PJ-20039- Al Barsha Third community facility park and few other parks and various subcontract works delivered on RTA contracts, to DEWA and many other Clients, we can recommend that the works proposed to be subcontracted to M/s EcoGreen landscaping LLC are well within their ability and fulfilment. We thus request again you to release the approval at your earliest to start with works.

Thanking You.

Yours faithfully

For AFCONS CONSTRUCTION MIDEAST LLC

Date: 07th January 2014

Ref: TRA/PRO/2014/160

Memo To: Director of Roads and Facilities Maintenance Department

Project: M1000- Special works

Subject: Quotations for Irrigation and Landscape Works at Nad Al Shiba Near Dog Track

We refer to the Quotations received on 10th December 2013 and Negotiation Meeting with the lowest Tenderer M/s. Ecogreen Landscaping L.L.C held on 24th December 2014 on the above subject.

We have reviewed the received Quotations and our comments are as follows:

- The Main Contractor of the above project M/s. Khanshaheb Civil Engineering LLC received three quotations from Sub-Contractors out of Five Invited Sub Contractors.
- The Original Quotations received on 10th December 2013 based on the B.O.Q prepared in liaison with Maintenance Department have been opened by Tender and Contracts Committee.
- Accordingly, Negotiation Meeting has been conducted with the Lowest Tenderer M/s. Ecogreen Landscaping L.L.C and the Sub Contractor has offered a discount of 10% on their Quoted Price, which equal to an amount of Dhs. 96,199.70.
- The received Quotations were checked arithmetically and comparison is summarized as tabulated below

	Company Name	Original Quotation Price	Discounted /Corrected Quotation Price	Variance from Lowest offer (%)
1	M/s. Ecogreen Landscaping	961,997.00	865,797.30	—
2	M/s. Green Scape	992,070.00	992,070.00	+14.58%
3	M/s. Orient Irrigation Services	1,287,428.00	1,287,428.00	+48.70%

*(A Detailed Comparison enclosed for reference in Table-1).

- Comparison of the lowest Quotation received from M/s. Ecogreen Landscaping as follows:

e.1. The quoted rates by M/s. Ecogreen Landscaping are found reasonable when compared with other quotations. However the rates for items "2,3,4,6,7,8,9,11,13,18,19,21,25 and 27 thru 31" were found high when compared to other Tenderer and anticipated cost estimate Also, the unit rate for Maintenance work were found low when compared to other Tenderer.

e.2. It should be noted that the unit rates are applicable only for Quantities stated in BOQ and in case of any quantities exceeded B.O.Q Quantities, the unit rates to be agreed.

Accordingly, Due to importance and urgency of the above work, we have no objection to approve the Sub Contractor M/s Ecogreen Landscaping to carry out the "Irrigation and Landscape Improvement Works at Nad Al Shiba Near Dog Track" for a Revised Price of **Dhs. 865,797.30** (UAE Dirhams Eight Hundred Sixty Five Thousand Seven Hundred Ninety Seven and Fils Thirty Only) based on Discount offered on 24th December 2013 enclosed herewith subject to:

- The Subcontractor has to comply with the RTA Terms and Conditions and to item e-2 stated above.
- Work Duration to be agreed
